

Majestic Himachal

[rev_slider majestic-himachal]

Himachal Pradesh has one of the highest per capita incomes of any state in India. Due to the abundance of perennial rivers, Himachal also sells hydro electricity to other states such as Delhi, Punjab & Rajasthan. The economy of the state is highly dependent on three sources: hydroelectric power, tourism and agriculture.

There is great variation in the climatic conditions of Himachal due to extreme variation in elevation. The climate varies from hot and sub-humid tropical in the southern tracts to cold, alpine and glacial in the northern and eastern mountain ranges with more elevation. The state has areas like Dharamsala that receive very heavy rainfall, as well as those like Lahaul and Spiti that are cold and almost rainless.
